DETAILED ACTION

Claims 2-4 and 8-12 were withdrawn without traverse in the election filed September 2, 2004 as directed to non-elected species. Presently, the limitations of claim 1 are directed to the elected specie only and are *not* generic. Appropriate action is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1 and 5 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claims contain subject matter that was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claims 1 recites, “said retaining means pass[ing] partially *through* the corresponding bore,” and “the open washer (10) is arranged in the circular seat (17) in such a way that its opening (18) is placed *above* one of the bores (2).” The retaining means cannot at the same time pass through the bore and above the bore.

Response to Arguments

Applicant’s arguments filed on January 18, 2005 regarding newly filed independent claims 13 and 17 are persuasive. However, claim 1 and its dependents are rejected under 35 USC 112, first paragraph as heretofore stated.

Allowable Subject Matter

Claims 13-20 are allowed.
